Dr. S. O. Richardson's

CELEBRATED SHERRY WINE BITTERS.

THE Proprietors of this Medicine offer to the Public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied, by those who are become acquainted with the regular virtues of these Bitters, that they possess a preeminence over all others now in use, for the diseases which they profess to cure

It is a well known fact that most diseases arise from a derangement of the stomach and Bowels, in youthful, adult and declining life

"The stomach crammed with every dish,
A medley of roast and boiled and fresh and fish,
Where bile and wind, and phlegm and acid, jar,
And all the riots in one intestine war"

The extensive sympathies which exist between these and every other part of the living body to the foundation of nervous diseases of all kinds, viz: Indigestion, Languor, Drowsiness Wandering Pains, Headache, Dearness of Spirits, &c.

And these, in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Bilious Fevers, Irritable nervous Headaches, Coughs, and a host of diseases which embitter life and poison all our enjoyments

The distinguished character of these Bitters is most striking their operation being more or less powerful according to the violence of the disease When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences they will be accepted

On the contrary, in obstinate cases, they frequently operate riper to gently, enclosing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in connexion with our food, both receiving mutual assistance until the system is restored to a state of health and renewed vigor

☞ For sale, wholesale and retail, at the Doctor's Office, No 15 Hanover Street, Boston; and in Bangor by G. W. Ladd, A. P. Guild, Potter & Brown, Hall & Young and E. B. Folsom, and all the Agents throughout the State. Stawd&w6m

GILT and Mahogany framed Looking Glasses from $5 to $15. S. A. TYPE.

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April 1836, directed the Land Agent of said Commonwealth, to give notice to sundry proprietors of lands in the State of Maine, who were required by a condition contained in the original deeds of conveyance from the Commonwealth, to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfilment of said condition, or pay the sum of $20 for each family deficient on the first day of June 836, or the lands would be declared forfeited

Pursuant to said Resolve notice was soon after given to all the proprietors of lands subject to said condition, most of whom, have complied therewith and removed the incumbrance The proprietors however, of the following townships, or tracts have not responded to the notice nor have they (so far as is known in this office) settled for or complied with said condition viz In the County of Cumberland—a gore of land lying between the towns of Raymond and Cutfield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Jonathan Gardner; one number two and number three in the third range

County of Oxford—Letter A No 1, now the town of Riley and A No 3 now the town of Newry

County of Somerset—A half township N 2 1st Range north of Dingmans Kennebec purchase granted to the Trustees of Sandwich Academy

County of Penobscot—Township No 3 on the west side of Penobscot River, granted to the Maine Literary and Theological Institution, now the town of Argyle, South half of township No 3, 8th range North of the Waldo patent granted to C Drowne and others and the north half of township No 3 9th range granted to the Trustees of Warren Academy

County of Washington—Township No 3 1st range west of Passamaquoddy River granted to Samuel Hinckley, No 1 4th range ditto granted to Williams College now called Cambridge and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 11th day of March last again to give notice to delinquent proprietors and to take such measures as he may deem to be necessary, to recover to the Commonwealth the possession of any of the above named townships or tracts of land from such proprietors as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April 1836

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U. S. Patent Office Washington

No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded, free of expense and risk to their owners and with all possible despatch The subscriber will prepare Caveats Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all persons trouble in obtaining their patents The experience of four teen years practice—an extensive collection of rare works documents decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of New port County of Penobscot and State of Maine, is now offered for sale in such parts as purchasers may desire This water power combines three essential advantages an unfailing supply of water the pond covering a large portion of the town and raised with little expense or damage, free from all risk as to freshets, and is never frozen It is situated in the heart of rapidly increasing and thriving agricultural county and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery an Iron Founderry and Machine Shop, and a Saw Mill and Grist Mill

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery and also of several acres of land adjoining, or of portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures

Notice to Mill Owners.

THE undersigned having purchased one half of the right of making vending and using VALENTINE'S PATENT CAST IRON WATER WHEELS for the United States have at a great expense fitted up patterns for casting twenty one different sizes of these Wheels, which are particularly adapted to the various heads of water for which they may be wanted

Upwards of two hundred of these Wheels have been put in operation in this State within the past year giving perfect satisfaction to the purchasers

A model of these Wheels was tested at Lowell Mass the past summer by a Board of Engineers composed of Ithamar A Beard and James B Francis Esqs of Lowell and E A Straw Esq of Manchester and it was afterwards placed in the hall of the Mechanics Fair at their last exhibition in Boston and received the only diploma awarded on water wheels

We annex an extract from the certificate of E A Straw Esq one of the board of engineers giving a statement of the experiments made with the model at Lowell which establishes the great superiority of the Valentine Wheel over any of the kind in use

MANCHESTER July 11 1845

Dear Sir—I send you the results of some experiments made at Lowell the other day with our Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel I think they prove conclusively that your wheel is at least 100 per cent stronger than any of the Tub or Reacting Wheels now in general use

The coefficient of effect or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of Undershot, Tub and Reacting Wheels at 33 per cent, but in nine cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Tub Undershot or Reacting Wheels 25 per cent of the power applied, indeed I know of well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per cent

With the results of your wheel before us it needs no arguments to show how vastly superior it is to such Wheels as I have mentioned The least result obtained from your wheel gave us about 42 per cent of the power applied which is a fair value of the power that could be derived from the common wheels before mentioned acting under the same circumstances

I have added nothing to the coefficient of effect for the friction of the wheel and apparatus which accordingly to our measure of it was 40 lbs or 1 10th of the heaviest weight raised If this were added as perhaps it should be to get at the actual effect of your wheel it would give as the result of all the trials a coefficient of effect of 50 per cent which I have no hesitation in saying is a result that may be obtained from any wheel similar to the model well constructed and acting under favorable circumstances

Experiments Nos 1 2 and 3 were made without back water Ex No 1 400 lbs lifted 9½ feet—fall 5 08 feet—effect 42 8 10 per cent 2 400 lbs lifted 5½ feet—fall 5 08 ft—effect 41 9 10 per cent 3 400 lbs lifted 9 12 ft—fall 5 7 feet—effect 42 6 10 per cent

The mean of experiments No s 1, 2 and 3 would be 42 4 10 per cent, without the friction in all an average of about 47 per cent which may be considered as the effect of your wheel when working free from back water

In experiments No's 4, 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments No's 7 8 and 9 wheel was immersed in back water

Ex No. 7, 296 lbs lifted 9 1-2 feet high—fall 4,06 ft—effect 1 3 10 per cent 8 296 lbs lifted 9 1 2 ft—fall 1021 ft—effect 56 3 10 per cent 9 296 lbs lifted 9½ feet—fall 4 01 feet—effect 48 1 10 per cent

The mean of experiments 7 8 and 9, would be 48 6 10 per cent besides the friction, in all an average of about 53 per cent which may be considered as the effect of your wheel when working just immersed in back water

E A STRAW *Civil Engineer of the Manchester Water Power Co*

All persons wishing to purchase Mill Wheels and other fixtures, can have their orders executed promptly and on the most reasonable terms

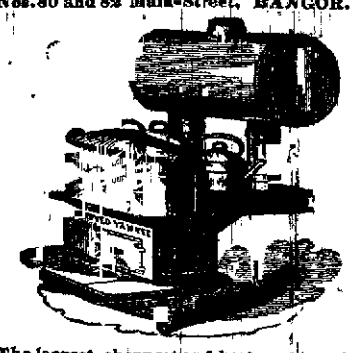
Cheap Cash STOVE WAREHOUSE,

Nos. 80 and 82 Main-Street, BANGOR.



The largest, cheapest and best assortment of Stoves of all descriptions ever offered in this city.

NATHANIEL JOHNSON, as above, has just rec'd and has on hand and for sale, cheaper than ever before offered the best assortment of Air Tight Cooking and other STOVES, in the State of Maine. He challenges competition from any quarter, in the styles, qualities, cheapness, economy and convenience of his stoves. All in want are advised to give him a call and thus save money, and enhance their comforts and convenience.

Among his extensive collection of Stoves may be found the following patterns and styles

The Maine Farmer Cook Stove which stands unsurpassed—is "the best ever made"—was cast expressly for me, made of the best of stock, is one quarter heavier than usual and if any one sold does not prove satisfactory, it can be returned any time within 30 days from the sale, and the price paid will be refunded.

A new and beautiful article of Parlor Stove with oclumns, patented last July. This is decidedly the most elegant article for the parlor ever offered.

PATENT AIR-TIGHT ELEVATED OVEN COOKING STOVES

This Stove has been on sale but a short time still it has obtained a greater notoriety than any other Stove ever offered for its superiority and excellence in every branch of cookery as well as its great economy in fuel.

Stewart's Summer and Winter Air Tight Cooking Stove

Also Wager's Air Tight Cook Stove warranted to give perfect satisfaction.

Likewise the PREMIUM AIR TIGHT with cast iron tops, and bottoms—lining inside—will keep its color and shape &c. The Railway Stove—Hathaway Stove—Hampden Stove—Norton Furnace Stove, 4 boilers—Empire Union Stove—Shepherd's Hot-Air, and 40 other kinds, of all descriptions.

N. J. respectfully invites the citizens of Bangor and the adjoining country to call and examine his immense collection of Stoves, promising to sell them as cheap as they can be bought at any other establishment in the State. Especially would he caution his country friends against placing too implicit confidence in those itinerant venders of Stoves to whom they must not only pay a round price for their Stoves, but they are also taxed for horse hire and other heavy expenses in addition.

Please call at 80 and 82 Main st Bangor.

Orders for Copper, Sheet Iron or Tin Work gratefully received and promptly executed.

LORAINE'S PILLS:

OR VALUABLE UNIVERSAL MEDICINE, CURATIVE, OF THE French College of Health, in Paris.

THESE Pills are now acknowledged by thousands, who take them daily, to be the only medicine that fairly takes the Banner from all others. This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced. They cause no pain, or uneasiness, of any kind in their operation, and require no other change of diet or care of any kind.

The attention of the readers is respectfully called to the following important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine—still greater, and more remarkable cures daily happen.

SWELLING OF THE BODY FROM HEAD TO FOOT, CURED!!

BOSTON, (Mass) March 10 1844.

SIR.—About a year since I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless. The doctor advised me to go to the Hospital, for he said he did not understand my case. The persuasion of friends induced me to try Dr Loraine's Vegetable Pills, which in a few days produced a great change in my system, by increasing the natural discharges, causing an appetite, relieving the pain, removing the swelling, and giving me strength and a perfect cure.

MARY JANE FRANCES

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL (Mass) April 20, 1844.

Sir—For the last few months I have been afflicted with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking 1 dose of Dr Loraine's Pills. J. BROOKS

A HACKING COUGH CONSTANTLY ANNOYED ME!

BOSTON, (Mass) June 1, 1844.

Sir—In February last, I took a sudden cold, after which, a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as every body told me that I was in a consumption. Since I have taken Loraine's Pills, and now every body tells me that I am well,—I feel as well as ever I did.

Buchan's Hungarian Balsam.

A FULL supply of the above valuable remedy for consumption, for sale by the dozen or single bottle, by A. P. GUILD.

BY THE QUEEN'S PATENT.

TRIUMPHANT SUCCESS OF

BUCHAN'S HUNGARIAN BALSAM,

THE GREAT ENGLISH REMEDY FOR

CONSUMPTION!

THE great and only REMEDY for Colds, Coughs, Asthma, and CONSUMPTION is the *HUNGARIAN BALSAM OF LIFE* discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this Medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians as CONFIRMED AND INCURABLE. The Hungarian Balsam has cured and will cure, the *most desperate cases*. It is no quack nostrum, but a standard English Medicine of known and established efficacy.

INCONTESTIBLE PROOFS,

Of the efficacy of this Balsam in the worst forms of Consumption.

From Dr Storer of Saco, Me

DR. BRADLEE—Dear Sir. The Hungarian Balsam is, beyond all question a most perfect and admirable preparation, for Diseases of the Lungs. I have used it in my family, and in my professional practice, for more than two years, with the most uniform and entire success, in cases of severe Pulmonary Disease, and I can conscientiously recommend it to all who are afflicted, as the most certain remedy for such diseases with which I am acquainted.

Yours Respectfully,
FREDERICK T. STORER, M. D.

Saco, May 22, 1845

Valuable evidence from David Bugbee, Esq. Bangor

LAMOIN, Sept 18, 1844

DR BRADLEE. Dear Sir. At your request I send you a report of my success as General Agent for the Hungarian Balsam. I have now had the Agency of that excellent medicine about two years, and have sold in that period, nearly twelve gross, or 1728 bottles. Much of this has been used in the vicinity of Bangor, but many dozen have been sent several hundred miles into the interior and the Provinces. To which I add, that the success of this Balsam in the relief and cure of Pulmonary diseases is absolutely astonishing. Hundreds, I am sure, have been saved from a premature grave by this medicine—invalids supposed to be past all hope, have been restored to comparative health, and the last moments of the sick have been made comfortable by its use. In cases of children afflicted with severe and obstinate coughs, it has been employed with great success, several instances of this having come under my personal knowledge. Indeed this is a grand medicine. Its reputation is established here, and the sales are constantly increasing.

Yours truly,
DAVID BUGBEE

Another Life Saved.

BATH, Me Feb 24 1845

DR BRADLEE. Dear Sir. I take much pleasure in giving you a statement of the beneficial effects of Buchan's Hungarian Balsam, on my daughter, who has been for a number of years afflicted with a bad cough, pain in the side, raising of blood and all those pains and troubles which attend that insidious disease, Consumption. I employ the physician who attended her a long time at great expense, and then advised the consultation of a celebrated physician in a neighboring town at still greater expense and after a number of visits from the advising physician, and the continuance for some time of the fair by physician he declared he could do no more for her. He had done all that he could, and I could see no benefit from it. I then employed a Botanic Physician for some time who seemed to do her some good, but did not reach the root of the disease. I was then advised by a friend to try Buchan's Hungarian Balsam. I have used six bottles with the most astonishing effect. It has restored her strength, cured her entirely of her cough and pain in the side, and she is now attending to her accustomed duties. This may seem wonderful but it is no more strange than true, and I would advise all who have symptoms of consumption to take this medicine in season, and not wait till all hope is past, although this case has terminated so fortunately. In this case I paid between one and two hundred dollars for physicians and medicine without any satisfactory benefit while six dollars worth of the HUNGARIAN BALSAM has removed the disease, renewed the strength and brought on a healthy action of the system. Try it for yourselves and you will find the one half has not been told. You can use this letter as you think best and as will do the most good, and wishing that your medicine may benefit many as much as my daughter.

I remain gratefully yours, NO YOUNG.

P. S. I would say further that about five years ago my daughter commenced raising blood which continued at times for three years and sometimes very bad, till about two years ago she commenced using this Balsam. The first bottle stopped the raising of blood entirely and she has not spit a drop from that to this time.

From J. E. Ladd, Apothecary, Augusta

AUGUSTA, Me May 27, 1845

DR BRADLEE. Dear Sir. I have sold the Hungarian Balsam of Life for two years past and having personally observed its beneficial effects in many cases of long continued and severe cough, I do not hesitate to recommend it as an excellent preparation for those diseases for which it is recommended.

Very respectfully, &c. J. E. LADD.

GREAT CURE AT AUGUSTA ME

AUGUSTA, May 27, 1845

DR BRADLEE. Dear Sir. I can truly say that the Hungarian Balsam has been of the most infinite service to me. I have been cured of an affection of the lungs which was thought to be INCURABLE by all my friends, by the use of a few bottles. One of my children was also restored to health after being pronounced beyond the reach of medical aid by the physicians, and it is now my constant resort in case of any difficulty in the throat and lungs. I have recommended this Balsam to a great many persons and shall continue to do so, as I believe it to be the best thing in the world for diseases of the lungs.

Yours truly, FRANCIS J. WEEKS.

From Edward Mason, Druggist, Portland, Me

PORTLAND, Me April 17, 1845

DR BRADLEE. Dear Sir. The Hungarian Balsam gives good satisfaction in this city and vicinity, and I have no doubt from the reports I hear of its salutary effects upon invalids, that it is an excellent preparation for diseases of the lungs. EDWARD MASON,
Apothecary 52 Middle street

HEAR THE PRESS.

From the Christian Observer, March 2, 1845

The public may place the utmost reliance upon the statements respecting the Hungarian Balsam, by Dr Bradlee the American Agent, who is an old and highly respectable citizen of Boston, a member of a christian church, and a man who would not for any consideration, give his influence in favor of any sort of deception or imposture.

From the Thomsonian

If any thing could reconcile us to a departure from Thomsonian principles, in the treatment of disease, it would be the extraordinary reputation of a medicine like the Hungarian Balsam, which we believe both from careful analysis and the statement of the inventor to be a purely vegetable compound. The effect of this medicine in cases of Consumption, is sometimes truly astonishing.

☞ Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping Cough, and Croup.

☞ Sold in large bottles at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the Agents, gratuitously.

DAVID F. BRADLEE, sole Agent for the United States, 119 Court street Boston—London Importing Warehouse.

THE GREAT NORTHERN REMEDY.

N. H. DOWNS'

VEGETABLE BALSAMIC ELIXIR,

FOR Colds, Coughs, Consumption, Spitting of Blood, Whooping Cough, Asthma, Croup, Bronchitis and all diseases of the Lungs.

This medicine is purely vegetable—the result not of mere theory and speculation, but of much study and research, during years of debility and suffering; and the inventor, having succeeded in curing himself, and having tested its efficacy on thousands of individuals in New England and the Western States, feels great confidence in recommending it to the public as a safe and efficient remedy. It operates most conspicuously in removing all morbid irritation from the Lungs and Pulmonary Organs, keeps the cough loose, promotes expectoration, and induces a degree of quiet in the system peculiarly grateful to the patient after having experienced so many days and nights of restless incessant and suffering. Hear the testimony of those who have been benefitted by it. Hon. Bates Turner, late Judge of the Supreme Court of Vermont, says, "I have been acquainted with the medicine called Downs' Elixir, for seven years past, and from its effect upon myself and in cases where I have witnessed its effect upon others, I consider it one of the most fortunate inventions ever made." Robert W. Woodruff, Esq. of Summerville, N. J., after certifying to its good effects upon himself in a case of long standing internal weakness, and coughs concludes thus—"This certificate is given with the hope that it may direct the attention of all suffering from colds, coughs, inward weakness, &c. to this invaluable medicine."

Dr Gustavus Hills, of Ashtabula, Ohio says, "I was induced to try the Balsamic Elixir, and having used one bottle with decided advantage I followed it with another which I hesitate not to say have had a more pleasing and permanent effect than all other cough medicines I ever used." William C. Perkins of Sumner sworn Great Falls N. H. says, "I have used N. H. Downs' Vegetable Balsamic Elixir for phthisic and found immediate relief and do consider it the best medicine ever used by me for that complaint." D. Baily, Esq. of Canton, N. Y. concludes his certificate thus "I have no hesitation in saying to the public that the said Balsamic Elixir was the only means of my recovery and I do most cheerfully and earnestly recommend it to the public." Chaplin Nelson of Waterford Me. in a letter to the general agents dated, March 10 1845, says, "The agent of Downs' Elixir was here last month and left one and a half dozen bottles with me; not knowing its value did not take much have sold all he left and finding it one of the most valuable medicines I ever had in my store to sell, want you to send on another lot immediately by stage."

Pamphlets gratis may be had of Agents giving a full description of the medicine, etc.

INSENSIBLE PERSPIRATION.

THE above figure is given to represent the INSENSIBLE PERSPIRATION is the great EVACUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface which indicates the wonderful process going forward within. This perspiration flows uninterruptedly when we are in health, but ceases when we are sick. It should be the care of every one to see that it is not checked. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and exposes by this means, of nearly all the impurities within us. The blood by this means only, works itself pure. The language of Scripture, is "for the BLOOD is life." If it ever becomes impure, it may be traced *directly* to the stoppage of the INSENSIBLE PERSPIRATION. It *never* requires any internal medicines to cleanse it, as it *ALWAYS* purifies itself by its own heat and motion, and throws off all the offending humor, through the INSENSIBLE PERSPIRATION. Thus we see, all that is necessary when the blood is a stagnant, or infected, is to open the pores, and it relieves *itself* from all impurity *instantly*. It owns heat and vitality are sufficient without one *particle* of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal medicine. All practitioners, however, direct it to be restored the Insensible Perspiration, but it seems to be not always the proper one.—The Thomsonian, for instance, *steams*, the Hydropathic, *shrouds us in wet blankets*, the Homeopathist deals out infinitesimals, the Allopathist blends and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills.

But one object only is in view, viz—to Restore the INSENSIBLE PERSPIRATION. If this can be done, they say, we will take care of the rest. It will be seen, therefore, that all physicians understand alike what is necessary, for a recovery, however much they may differ as to the mode of obtaining it.

To give some idea of the amount, and consequently the importance of the INSENSIBLE PERSPIRATION, we will state that the learned Dr Lettsom, and the great Boerhaave, asserted that five-eighths of all we eat or drink enters the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particles of the blood, and other juices, giving place to the new and fresh ones by carrying with it all the impurities within, up to the surface. To check this, there or elsewhere to return to the system five-eighths of all the virulent matter that nature demands should leave the body. And even when this is the case, the blood is no active a principle, that it determines those particles to the skin where they form scalds, pimples, ulcers and other spots, but if it is directed inwards, and falls upon the lungs, the consequences are generally fatal.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence a stoppage of this flow of the juices, originates so many complaints. It is through the surface that we imbibe nearly all our life.

It is by stopping the pores, that overwhelms mankind with coughs, colds and consumptions. Nine tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION.

It is easily seen therefore, how NECESSARY is the flow of this subtle humor to the surface, to preserve health. It cannot be stopped, it cannot be even checked, without inducing disease. The blood and intestines must relieve themselves of all their worn out particles and poisonous humors and they must go through the pores as nature designed.

Let me ask now every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they are closed, and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface where the clogging actually is? Would not this be common sense? And yet I know of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge is capable of doing it. Under these circumstances I present to physicians, and to all others, a preparation that has this power in its fullest extent. It is *McAlister's All Healing Ointment* or the *World's Salve*. It has POWER to *restore perspiration* on the feet, on the head, around old sores, upon the chest, in short upon any part of the body, whether diseased slightly or severely. When the perspiration is restored it has POWER to penetrate to the lungs, liver or any other part of the human system, and so to act upon them if they be diseased by separating the inflamed morbid particles therefrom and expelling them to the surface.

It has POWER to cause all *external* sores, scrofulous humors, skin diseases, pimples, wounds to discharge their putrid matter and then heals them.

It is a REMEDY that sweeps off the whole catalogue of cutaneous diseases and restores the circulation to healthy functions.

It is a REMEDY that renders the necessity of scrofula and deleterious drugs taken into the stomach.

It is a REMEDY that neither sickens, gives inconvenience or is dangerous to the most tender.

This REMEDY is probably the only one known, that is capable of producing all these great results. Its great value is in restoring *at once* the circulation of the juices when checked or disarranged by cold or other causes. It preserves and defends the system from derangement of functions while it keeps open the channel for the blood to void off its impurities and dispose of all its useless particles. There is a connection, harmony and beautiful in all that defies contradiction. It is a simple but *wonderful* principle that preserves in healthy operation the entire machinery of our being.—It indissolubly holds together the *surface* and *internal viscera*, the *internal viscera* and the *surface*. They are intimately connected and cannot be disjointed. The surface is THE outlet. Five-eighths of the life and worn up matter with which it is pierced with MILLIONS of openings to RELIEVE the intestines. Stop up these pores and DEATH knocks at your door. It is tightly closed All Healing Ointment is scarcely a disease, external or internal that it will not benefit. It will be found the most useful as well as the cheapest family medicine in the world. I have used it for the last fourteen years with success without a parallel. I have used it for all diseases of the chest, consumption, liver and the most dangerous of internal maladies. I have used it in cases of extreme peril and hazard, involving the utmost danger and responsibility and I declare before heaven and man, that not in one single case has it failed to benefit when the patient was within the reach of mortal means.

I never, to my recollection, had more than five cases among the thousands who have used it say that it was not favorable to their complaint. On the contrary I have had hundreds within my knowledge warmest and most pathetic language speak in its praise. I have had physicians, learned in the profession, Judges on the Bench, Aldermen and Lawyers, gentlemen of the highest station and MULTITUDES of the POOR use it in every variety of way, and there has been but one voice—one united universal voice saying "McAlister, your Ointment is GOOD."

CONSUMPTION.

Of all diseases we find this the most important and concerning which we meet with the most opposition. It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But say once for all that this Ointment will reach the lungs *quicker* than any medicine that can be given internally. Every body consents to the fact, that if a healing medicine could be applied ON the lungs, there would be great hopes of recovery. The difficulty is to get the medicine *there*. Now the Salve has the wonderful virtue of extracting the putrid diseased humors from all *external* sores, by causing them to discharge. In like manner it operates upon *internal* affections by drawing all the impurities through the pores to the surface. Thus with Consumption it placed upon the chest it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system.

It is the simplest and most rational process to effect one, if one has *the medicine* capable of doing it. The All-Healing Ointment possesses this power to its fullest extent. I need not say that it is curing persons of consumption continually although we are told it is foolishness. I care not what is said, so long as I can cure several thousand persons yearly. If this medicine was in the hands of some patent medicine brawlers, they would make an uproar through the country that would be insupportable.

SCROFULA, OR KING'S EVIL.

This disease is really inveterate, and hard to be subdued. It is generally seated in the side of the neck behind the ears, and under the chin, yet scarcely any part of the body is exempt. I sometimes falls on the lungs, and produces consumption. It is a dreadful circumstance, that this disease is transmitted from parents to children.

The Salve will extract all the morbid matter, by causing the sores to discharge; and then let the *Solar Tincture* be used to drive it to one point, which done, a continuance of the Ointment will completely remove the disorder.—This is probably the safest and most effectual of any method. It should be adopted without a moment's hesitation.

ERYSIPELAS.

This complaint arises from impurities being driven out to the surface by means of the INSENSIBLE PERSPIRATION, and lodging in the cuticle, forms sores, pimples, &c., it being of a acrid, acid putrifying nature. It requires that it should discharge its virulent particles through the skin, and the difficulty passes off. If suffered to remain, and driven inwards it is frequently fatal.

Let the Salve and *Solar Tincture* be used in Scrofula, and the patient will soon get well.

SALT RHEUM.

This is another obstinate disease, and cured effectually by the Salve. Difficulty in this disease.

HEAD ACHE, EAR ACHE AND BLINDNESS.

The Salve has cured persons of Head Ache of 12 years standing and of Blindness *partially* every week, so that persons could go to their place. It cured the wife of a man who was ordered to my store for proposing to leave a place in the state. If any man who has trouble to call I will give his name.

Deafness and Ear Ache are treated with like success, as also Ague.

COLD FEET.

Consumption, Liver Complaint, Pain in the chest or side, falling of the hair, and other always accompanies, and is a sure sign of disease in the system. Keep the feet warm and endeavor to keep them warm and endure in cold weather. The Salve will reach the lungs, INSENSIBLE PERSPIRATION and thus cure every disease.

ASTHMA, TIGHTNESS OF THE CHEST.

If this disease be not hereditary, and caused by a mal formation of the chest, the Salve will cure it.

DYSPEPSIA.

One would suppose a Salve for this disease much, but the Salve will cure one, two, some three days will cure one.

SORE EYES.

The inflamation and disease of the ball of the eye in the eyes, the mortifying of all remedies, the lids. The virtue of any salve reach the seat of the inflammation, little good. This Salve penetrates directly, and infuse all its virtues upon the eyes, pores will be opened, a perspiration be created and the disease will be on the surface. How easy, and how cheap, as perfect and valuable as all the philosophies!

SORE LIPS, CHAPPED HANDS.

Earth is great deal of Salve, but the ONLY thing that can heal hands when exposed to the weather like a charm in these complaints cures.

PIMPLES ON THE FACE FRECKLES, COLLINE SKIN.

Its first action is to expel the humors, leaving all the face in free, healthy condition, and leaving the surface. It is a delicate, pure, and a perfect well. It is superior to all these.

ITCH.

The Salve acts upon the humors. There is an inflammation which the parts. The Salve does the.

HERNIA OR RUPTURE.

This Salve has cured many persons, and although it may not cure all, it is worth trying. It is a peculiar complaint, but it is of a nature entirely. I have doubt it will cure thousands, who believe no medicine of the least. Its worth would satisfy any one, who do good or not.

WORMS.

If parents knew how fatal many children are taken to early they would be to them. Recollect worms are indicated by signs, serious, were it possible to be positive, present is in doubt. The Salve, consistently when worms are, is entirely not applicable in cases, but is very, that the Salve, children worms. Let the child to keep off the herbs and they will. every vestige of the worms. Salve cure. No injury can come of it. Let the children, if the constitution, will suffer it.

There is probably no medicine, once to cure and expel worms. It would be cruel, any internal doubtful medicines, tics, and effectual external operation.

COLIC, PAIN OR INFLAMMATION OF BOWELS.

Let the Salve be rubbed in and hot flat irons, and all pains and disease cease.

SWELLINGS.

of the Joints or weakness, or any other nothing is so good as this Salve.

POISONS.

I never knew any thing so good as this. Salve is poison to discharge immediately the slightest sense of alarm. Poison by animals, of bites or stings, Salve relieves.

BOILS.

Have it done up in pots for the Salve. Although the Salve is little bitter, active yet I will at keep against the Salve may be applied on Old Friends or any the hair two cases to their cost. If words for I am ready to back it with amount.

OLD SORES, MORTIFICATIONS.

There is no efficient way of drawing off the putrid matter. It would only endanger one's life by the sores are an outlet to the impurities, the only reason because they are the natural channels of the system. Such sores are healed up the inside, some other outlet will be found, reason why it is impolitic to use the the day in such cases. For instance other avenues, to let off the consequences are always fatal. The ways provide for such emergencies. There no fear. It is perfect.

BROKEN BREAST.

Persons need never have a Salve will ALWAYS prevent it.

LIVER COMPLAINT.

Persons with this disease frequently of the hands, face and other parts, think that it arises from the liver. to remove these eruptions, prevent the disorder. Such must use it then wear it on the chest, and the difficulty go away.

ILLIAC PASSION OR GRIPING OF THE BOWELS.

This disease caused the death of the late Hugh S. Legare, Attorney General and Secretary of State of the United States. op of the smaller intestines, and some ing of them. It is brought on by a sudden evacuations, or from incarcerated flatus. are awful, and unless help comes speedily soon dies.

The All Healing Ointment would have of Mr Legare and all others under similar cases.

All pains, gripings, inflammations and the bowels will be relieved if not effectually.

CORNS.

If the Salve is used according to direction need never be troubled with Corns, by some traveling Mountebank, who knows more mischief than he can possibly repair. This Ointment put on now and then will always keep them down.

Indeed there are few complaints that it will not. It is a FAMILY Salve of untold value. As the sky rolls over one's head and grass grows the earth, it will be sought after, and sold. As there is no mercurial substance in, it is entirely of vegetables, it gives no ground for objection.

SEVENTH SENATORIAL DISTRICT, WHIG CONVENTION.

The Whigs of the several towns composing the seventh Senatorial District are requested by their delegates to meet at Cherryfield on the 28th day of August at 11 o clock in the forenoon, for the purpose of nominating a candidate for Senator for said District and doing any other business pertaining to the same The usual number of delegates will be expected By order of the Committee

aug 20

Whig Candidate for Governor—

Freeman H. Morse.

It is with no ordinary satisfaction and pride that we refer our readers to the action of the Whig State Convention in nominating as their candidate to the highest office in the State, Freeman H Morse of Bath This nomination presents no whig party in the true light, as the really democratic party of the State—the party of progress—free from prejudice and ready to seek for its head men where the best men can be found, whether they toil in the field, or sweat over the anvil, or wield the broad axe, or the chisel Mr Morse is a man of sterling integrity, from youth up he has never violated any trust put in him His whole being loathes unfaithfulness and corruption in both private and public life His neighbors would trust him with their dearest interests Probe him any where and he is sound to the core He is a man of strong common sense, readily understanding the merits of a cause and with an openness almost intuitive apprehending the course that should be pursued To liberal natural gifts he has by patient, steady and sober reflection, acquired an education, of which most men would feel great pride In his early years he was known as a great reader and in his latter years, amidst the labor of his work shop, he has frequently turned aside in a spare hour to gather up some new fact and investigate some new principle For several years he brought the vigor of his well stored mind to bear upon the interests of the State as the Representative from Bath His indomitable industry in mental acquisitions, which long years of application had made familiar, was still continued, and his thorough investigations of all subjects before the Legislature gave him a commanding and highly influential position He never was a mere adventurer, artfully flattering, either the people or those in power, for the sake of popular favor His soul would spurn the idea of receiving applause without possessing honest merit From the halls of our State Legislature the voice of the people of his district called him to the higher responsibilities of representing them in the Congress of the United States Their expectations were more than realized He discharged the duties of this high station with signal honor to himself and with benefit to his constituents, and when his term of office expired, like a true man, he tied on his apron again and went contentedly at work in his shop—The voice of the representatives of the whigs of the whole State have now selected him as their standard bearer and proposed him to the people of the state as one in whom they may place the utmost confidence, as every way qualified for the duties of chief magistrate

His eminent abilities, acquired by the closest application, have justly given him a distinction as a liberalized man His unbending integrity—his lofty patriotism—his deep devotion to the great interests of the people, his experience in public affairs, eminently point him out as worthy the entire confidence of the whole people No stain rests upon his character, and those who know him best, and have been associated most with him in public affairs, accord him the highest praise He never yet has met with circumstances to which he was not more than an equal

It is, we must confess, particularly gratifying to us as a mechanic, that a mechanic has been selected as a candidate for Governor, and one too in whose ability and integrity all professions place the most undoubting confidence The last forms a new era in the history of our State alike honorable to the whig party who have made the selection, and to the mechanics of Maine that they had such a man to be selected

It now becomes the workingmen of Maine to see to it that this favorable opportunity to place one of their own class in a commanding position before the people be not neglected by any selfish or narrow party prejudice They have it in their power now to prove to the State the fitness of mechanics for stations heretofore deemed beyond their reach. They can now by the election of Freeman H. Morse for Governor, secure an able, reliable and honest administration in the executive department of the State. They can, if they please give new encouragements to those, who like, Mr Morse in his younger days, devote their leisure hours to mental acquisitions and respect their moral powers and preserve their integrity These are considerations which apply with great force, at the present time to the workingmen of Maine We have no prejudices against the professions having out grown any we may have cherished towards any of them, and because we would have men respected, and not the accident of profession, we feel more than a common interest in having Mr. Morse elected, for thereby a new element of good, will be infused into the popular sentiment regarding this matter.

The greatest reason, which should operate upon the mind of the people of Maine in favor of Mr Morse over his opponent is, that Mr Morse is an honest and trust-worthy man who will elevate the office of Governor and give it a higher moral dignity than it has for sometime sustained. He will not basely cringe to the dictation of a political chieftain lower his personal and official responsibilities to demagogue efforts to secure place for himself, nor to register the edicts of self constituted political leaders He will neither through negligence or corrupt design, tarnish the honor of the State by making it even remotely connected with falsities or frauds His election will give an emphatic and justly merited rebuke to the present Executive of the State whose official conduct has inflicted a wound upon the honor and good faith and just dealing of a sovereign State Let the sons of men in the State—the workingmen of Maine—the great industrial masses unite in calling from his workshop an intelligent, large minded, honest hearted mechanic, as their Governor, and leave the truckling, managing, mousing political intriguing and adventurer to get his bread by labor, instead of securing it by corrupt cunning Remember the eighth of September, and put in the votes for Freeman H Morse

The Whigs should Work.

To the Editor of the Whig & Courier

Presuming you have a little knowledge of political matters, I should like to enquire if it is the calculations of the whigs to quietly fold their arms and let our opponents have their own way in the ensuing election It appears to me it is high time for the whigs to arouse from the apathy into which they have fallen, and make another effort to redeem our State from the thraldom of Locofocoism, and introduce once more into our affairs honesty and political integrity If there was ever a high handed act that should open the eyes of the people, and arouse them to action, it is the late attempted fraud perpetated by the present Governor and Council upon the Treasury department at Washington If they have a spark of State pride left they will hurl from power the man who has thus disgraced our State and fastened the stigma upon our character that a whig administration only can wipe away But aside from these considerations, there are other inducements to labor to change the policy that has been pursued by the party in power We have within our borders the means of making us second to no State in the Union for wealth and enterprise And with a liberal State policy, encouraging the development of those resources we shall soon occupy the front rank of Commercial and Manufacturing States, giving to labor constant employ and and a just reward for its services

Our candidate was selected from the work shop and his sympathies are with the people One upon whom the nomination was conferred unsolicited, and who yielded only to the wish of his friends, trusting that he might in some manner be instrumental in bringing about that liberal State policy which will secure us plenty and happiness at home, and respect abroad

With these worthy objects in view let us commence at once to organize in every town and district and continue to labor in the good cause until the contest is over, and if we are defeated we shall have the proud satisfaction of knowing that we did all in our power to secure the triumphant success of those principles which are worthy of our continual efforts until they shall be adopted as the policy of our State

A Whig

City Affairs.

IN COMMON COUNCIL, Aug 26 1845

Present, Messrs Cushing, Savage, Hatch, Mills, Poor, Smith, Higgins, Jones, Mucomber, Low, Sayward,—Walker

Absent, Messrs Paine, Hyde, Boynton, Lergro, Sandford Haskins, Warren, Dillingham

Ordered, That the mayor be authorized to draw his order to pay from the contingent fund, to the Lessees of the City Common, such sum as they may have paid or rendered themselves liable to pay in defending the title of the city to said common against the claim of Henry Warren, Esq. The amount to be determined by the City Solicitor Passed and sent up for concurrence Laid upon the table in the Board of Aldermen

An order for the City Marshal to remove the pumps and timber now standing near the Mercantile Block and cover the well. Passed in concurrence

Communication of the Street Commissioner asking for for her appropriation for completing the orders of the city council, Referred to the committee on Finance in concurrence

Ordered, That the sum of $1000 be transferred from the Contingent to the Highway fund, and that the Street Commissioner be directed to report to the next meeting of the city council the amount of money now expended by him on sidewalks and highways, and further report whether any of the expenditures now contemplated and already ordered can be postponed without public detriment. Passed in concurrence

Report of Street Engineers on laying out Oak in road, from Cornelius road to the Wasgatt lot Accepted, and the street established in concurrence

Petition of Samuel Knight for allowance of damage to house and chaise in consequence of defect in road at City Mills. Referred to committee on accounts and the City Solicitor, in concurrence.

An order directing the City Solicitor to report what measures have been taken to obtain a decision of the question whether Messrs. Geo and Isaiah Stetson have any legal claim to that portion of York street west of Exchange street.—Passed in concurrence.

An order authorizing the Mayor to draw his order in favor of Waggine Hill for the sum of $ 63,65, it being for damages allowed him in laying out May street. Passed in concurrence

An order authorizing the Mayor to employ some person or persons to take the census of the city provided the same can be done at an expense not exceed ng fifty dollars Passed in concurrence

Report of Committee on Accounts on several bills Accepted in concurrence.

Order directing the Street Commissioner to plow the surface of Hancock street, near Oak street, in order for the removal of a portion of the earth. Passed in concurrence

An order directing the Street Engineers to lay out continuation of third street, to Clinton street Passed in concurrence

Adjourned to Tuesday next at 7 o'clock, PM.

Indian Fight.

The St Louis New Era says that on the 14th of July, a band of Ottos massacred four Pawnees, who were living among the traders and men in Government employ, on the south side of the Missouri, opposite the Bluffs

It appears that a short time since, a large band of Pawnees and Arrapahoes fell in with a party of Ottos returning to the river from their hunting ground, taking advantage of their superiority of numbers, they succeeded in killing about thirty five of their number The massacre at the Bluffs was an act of revenge on the part of the Ottos, and the tomahawk is again dug up to be used by both tribes, they have ever been, and perhaps will never remain, in hostile array to each other

☞ We take great pleasure in publishing to day several poetical gems from the pen of that charming poetess, Mrs E Oakes Smith The fair authoress is now in this city and will, next week, make one of a pleasant, party visiting Moose Head Lake, and enjoying its varied and splendid scenery, and gathering in something of its inspiration

☞ We are informed that two dollar counterfeit bills of the Brunswick Bank are in circulation in the city

☞ The rice crop at the south, owing to the long drought this season, is said will be miserably short

Iron

A most important discovery in the manufacture of iron has been made at Troy The west side of Lake Champlain abounds in a magnetic ore, from which the new iron is made in a reverbatory furnace with only one heat The result is a soft malleable iron, capable of being drawn into the smallest wires It is obtained by a process of oxydizing the iron, for which a patent has been secured by the inventor The cheapness and facility with which iron can thus be produced makes it one of the first inventions of the age How will the makers of iron in the old fashioned way be protected against his improvement —N Y Mirror

BY TODAY'S MAIL

Texas and Mexico. Important movement of Troops—Requisition for men on our Governor—The call Responded to

The New Orleans Picayune of the 13th inst states that Gen Gaines commanding the Southern military division of the United States, had made a demand on Gov Mouton for one thousand men or more, for the national service, and that the Governor promptly made a requisition on Gen Lewis, commanding the first division of the Louisiana militia, for the required force, viz two regiments of volunteers, of ten companies each—one of them to consist of musketeers and one of rifle men, and two companies of artillery with eight field pieces The requisition was of course, immediately responded to, and will be put forthwith into execution

This movement is said to be consequent upon authentic information which has reached General Gaines of the advance of 10,000 Mex can troops to a point within eight days march of Gen Taylor s quarters We are not aware of the precise disposition which is to be made of the volunteer force, the great body of them, we believe, go to reinforce Gen Taylor s command

The military companies in the city are generally offering their service

Affairs in Kentucky Mr. Clay's Pressre moved to Ohio.

We learn from the Boston Mail, that which fills us with shame for our own country, that a free press cannot be suffered in Kentucky It is reported there was no mob at Lexington on the 18th, but Mr Cassius M. Clay had been prevailed on by his friends to move his office to Cincinnati A large concourse of persons assembled from the adjoining counties, and the destruction of the office would have been inevitable but for the adoption of this course At the meeting Mr Marshall introduced, with some few remarks, the report of the committee appointed by the citizens together with the resolutions prepared A committee of sixty were appointed, who reported at 2 o clock that the press was taken down, the key of the office had been given up, and that it would soon be on the cars for Cincinnati The Cincinnati papers do not mention its arrival in that city

Murder of Capt H. Curtis.

The Boston Eagle states that Capt H C Curtis of the bark Warwick, from Bangor, was murdered at St Croix on the 1st inst between seven and eight o clock in the evening, by one of his crew, named James Moore In the scuffle the captain received four stabs with a knife, two of which were mortal, and terminated his death on the following day, at 8 P. M Moore was in prison at St Croix, and it is supposed will be sent home by the American Consul, for trial

Letters of Marque.

A gentleman lately from Havana says it is currently reported in that city, that letters of marque, signed by the proper Mexican authorities, are in the hands of persons in that city, only awaiting the declaration of war on the part of Mexico, to be filled out and given to any person who feels a disposition to enter upon the enterprise of privateering The story seems rather improbable, but the gentleman himself says there is no question at Havana that it is perfectly correct

☞ The N. Y Commercial learns from the best authority, that from and after the first 3d November next there will be no traveling on the Sabbath on the railroads between Albany and Buffalo

☞ There is a rumor that a revolution has broken out at Hayti between the mulattoes and the blacks

☞ We are indebted to Jerome & Co's Express for Boston and New York papers received by the Penobscot in advance of the Mail.

Present to Eton College.

The King of Prussia has presented a rare and valuable volume to Eton College It is entitled "*Nibelungen*," and is a most curious work, in large folio, and beautifully printed on vellum, containing one hundred and fifty-five pages It is magnificently bound in purple velvet, inlaid with mass ive ornaments of solid gold and of curious and elaborate workmanship The royal present to the college authorities, is described in the letter which accompanied it, from his Excellency, the Prussian Minister as being "one of the only two copies of the Niebe ungen in great folio, struck off as a monument of typography at the centenary festival of Guttenburg s invention in 500 copies only The two on vellum were struck off for the King and Queen of Prussia" The copy intended for the King of Prussia was presented to Eton College by his Majesty, and the other copy has been placed in the royal library at the palace at Berlin The following is a translation of the German inscription on the first leaf of the book, in the handwriting of the Prussian Sovereign,—"To Eton School, the guardian of the hope of the rising generation, the promoter of all that is good and noble, the preserver of old Saxon intellect, this hero poem of the German people, and memorial of the jubilee of a German invention, is presented, in memory of his visit, in January, 1842, and in gratitude for his affectionate reception, by Frederick Wilhelm, King of Prussia. Berlin, June 19, 1844

Christianity alone elevates woman to her proper place in society, and enables her to exert that influence in forming the character of sons and thus partaking and exalting man, for which nature designed her

Nothing is so easy as to resent—nothing so noble as to pardon

Excerpts.

From the Poetical writings of Mrs E Oakes Smith, 1 vol 12mo, J S Redfield, Clinton Hall Just published.]

RELIGION

Alone yet not alone, the heart doth brood
With a sad fondness over its hidden grief
Broods with a miser joy wherein relief
Comes with a semblance of its own quaint mood
How many hearts this instant of life have paused
And some at train of night behind have cast,
To show us what hath been and what may be,
That thus have suffered all the wise and good,
Thus wept and prayed, thus struggled and were free
So doth the pilot trackless though the deep
Unswerving by the stars his reckoning keep,
He treads a highway not untried before
And thence he courage gains, and joy doth reap
Unfaltering as his course, and leaves behind the shire

RAIN

Drop after drop it trickling down
To kiss the stirring brook
The water dimples from beneath
Will its warm joy to look,
And then from scattered drops embrace,
And singing on they go,
To dance beneath the willow tree,
And glad the vale below

MENTAL SOLITUDE

There is a solitude the mind creates
A solitude of holy thought profound—
Along such there the soul is free! waits
It makes its to dwell a hallowed ground
Let the proud eagle when he highest soars
Leaves the dim earth and shadows far behind—
Alone the hunter cloud around him roars
And the rent pinion flutters in the wind—
Alone he sears where higher regions sleep
And the calm ether owns no storm or cloud—
And thus the soul its upward way must keep
And leave behind the tempest raging loud—
Alone to God bear up its heavy weight
Of human hope and fear nor feel all desolate!

MIDSUMMER STORM

The winds were hushed the little bird scarce gave
A nestling sound
The warm air slept along the hill the blossoms
drooped around,
The shrill to-tied insect hardly stirred the dry and
crisped leaf,
The laborer laid his sickle down beside the bending
sheaf!
A dark portentous cloud is seen to mount the eastern sky,
The deep hum of thunder rolling on proclaims the tempest nigh
And now it breaks with deafening crash and lightning's livid glow,
The torrents leap from mountain crags and wildly lash below

DUTY

GUEST after guest departs the heart that erst
Seemed a bright portal all in garland dressed
To which the rosy-crowned joy from pressed,
Endeth ere long that each a thorn had nursed
With which to pierce the too unwary breast
Vainly we fold a mantle o'er each guest
Willing to hide the thorn, if though it may
A sober gladness in the soul arise
Vainly we hope their footsteps to delay
They leave the pang and one by one depart
Till cold and desolate the portal lies
Yet not all desolate—a calm pale face
Looks in then enters the deposoled heart,
And soft is hushed and still, for Duty fills the place

THE BROOK

"The sunburnt child with its rounded foot
Comes hither with me to play
And I feel the thrill of its lightsome heart,
As he dashes the merry spray
Return the mill with answering glee
As the merry spokes go round
And the gray rock takes the echo up
Rejoicing in the sound
The old man bathes his scattered locks,
And drops one a silent tear,
For he sees a wrinkled, care worn face
Look up from the waters clear
Then I sing in his ear the very song
He heard in years gone by,
And the old man s heart is glad again,
And shoots light up his eye"

TWILIGHT

The rude and garish light that all day long
With half-oppressive gladness walked the earth,
The bud to beauty forcing till it droops
Athirst o er freighted with life the bard of song,
Made weary with its own exulting mirth.
Now, softly o er the vale and hill side stoops
To gather back its beams, well pleased to spread
A downy mantle o er the exhausted land
Sweet dew distilling hour though joy be fled
We mourn it not, thy balmings are so bland
Thus falleth life to her by whom I kneel,
Watching the pulse aweary of they play
Thus twilight anodes over her senses steal
And life's acquiet visions fade away

SOUL DISCIPLINE

No inward pang no yearning love
It lost to human hearts,
No anguish that the spirit feels,
When bright wind hope departs,
Though in the mystery of life
Disordant powers prevail,
That life itself be weariness,
And sympathy may fail
Yet all becomes a discipline,
To lure us to the sky,
And angels bear the good tidings
With fostering care on high,
Though human hearts may weary grow,
And sink to hollow sleep,
And we are left in solitude,
And agony to weep,
Yet they with ministering zeal,
The cup of healing bring,
And bear our low and grateful
Away to heaven-ward wings
And thus the inner life is wrought,
The blending earth and heaven;
The love more earnest in its glow,
Where much has been forgiven!

THE BARD.

It can not be, the baffled heart, in vain
May seek, amid the crowd, to throb to side,
Ten thousand o her kindred pangs may bide,
Yet not the less will our own griefs complain
Chained to our rock, the vulture s gory stain,
Ant tearing beak is every moment rife
Renewing pangs that end but with our life
Thence forceth forth the gushing voice of song
The soul s deep anguish thence an utterance finds,
Appealing to all hearts and human minds
Bow down in awe, thence doth the bard belong
Unto all times and this O this is same—
He asked it not, his soul demanded bread;
And yet, shrouded with the voice, gave but a stone
instead,

ESMERAISE

R. J B DODS of Boston will deliver a course of six lectures on Mesmerism, in the City Hall, commencing this (MONDAY) Evening Aug 25th, and continue every evening during the week He will not only perform some of the most striking experiments in Mesmerism, but also in Electricity Galvanism and Magnetism, to demonstrate a theory
